### REASON FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: allowance of claims 4-5, 7-8 and 19-20 is indicated because the prior art of record does not show or suggest a current controller for reducing the application of the high-frequency current to the heating inductor to allow the temperatures throughout the entire region of the thin sheet to become more equalized and then for increasing the application of the high frequency current to the heating inductor to increase the temperature of the entire region of the thin sheet to the temperature at least equal to the target temperature, said current controller having a frequency tracker for tracking the high-frequency current of the heating inductor corresponding to an impedance of the region to be heated, and stopping or reducing temporarily the power application of the high-frequency current to said heating inductor when a resonant frequency of the high-frequency current becomes a predetermined frequency as recited in claim 19.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quang T. Van whose telephone number is 571-272-4789. The examiner can normally be reached on 8:00Am 5:00Pm M-F.
